Dear RICK SELVERA:

Carter BloodCare is able to provide 95% of our North Central Texas blood supply because of sponsors like you. Close to 1000 donations must be collected each day from Neighborhood Donor Centers and sponsored blood drives like yours to consistently keep up with our community's growing demand for blood products and services. Your blood drive and donors are vitally important to our community ... just ask one of the thousands of patients whose lives have been saved by timely blood transfusions.

We thought you might like to know the donations from the drives you have sponsored over the last two years helped save the lives of as many as 16 people. Whether used to replace red cells lost during an accident or surgery or to supply plasma for burn victims or platelets for cancer patients, your donations played a critical role, and all those who participated in your blood drive should be proud.

The products created from donations at your drives were shipped to health care facilities throughout North Central Texas, including:

BAYLOR SOUTHWEST

PROVIDENCE HEALTH CENTER

In the initial planning of your blood drive we set a goal of approximately 14 donations. The actual draw was 16 donations, which means your drive attained 114% of its goal. **AWESOME!**

As an added benefit to donors who participated in your drive they can find their blood type, view their donation history, or monitor changes in their cholesterol by looking up their donations on our website at www.carterbloodcare.org. If your organization has a home page, you may consider installing a link to the Carter BloodCare web site to make this information even more accessible to your employees.

VFW #8561- ARL Blood Drives - Past, Present, and Future

This table shows donations and product statistics for your latest blood drive on Monday , 11/23/09 .

Blood Drive Date	Donation Types	Donors Seen	Units Given	Components Anticipated
11-23-09 Mon	Whole Blood and Other	19	16	16
	Apheresis Platelet	0	0	0
	Double Red Cell	0	0	0

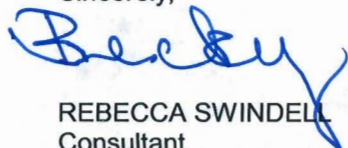

This is a list of blood drives scheduled for the future:

Blood Drive Date	Whole Blood	Apheresis Platelets	Double Red Cell	Total Donors Anticipated
Not Scheduled				

While a graph tells the statistical story of your drive, the real impact of your blood drive can be seen in the faces of people who are alive today because of blood transfusions - people like Darla, a heart and lung transplant patient, or Cordell, a high school senior living with sickle cell or Paxton, a two-year old bone marrow transplant survivor. There are thousands of people right here in our community who have been given a second chance because people like you put the time and energy into a blood drive.

Your thoughts and ideas on your recent blood drive, are very important to us. Please take a moment to go to our web site at www.carterbloodcare.org and complete our blood drive survey. If you have any questions, recommendations or would like to schedule a new drive, please contact me at 817-412-5369. Once again, on behalf of patients throughout North Central Texas thank you for the time and effort you gave in sponsoring a Carter Bloodcare blood drive.

Sincerely,

REBECCA SWINDELL
